

PUBLIC FORUM DATES AND CONTACT INFORMATION

Get involved in our initial consultation on these important documents

A series of nine public forums have been planned for across Southland to introduce communities to issues and options.

Feedback from the forums and the public consultation will help form the content of both second generation plans.

Further formal consultation with opportunities to formally submit will be undertaken when the plans are developed.

This preliminary consultation is purely to obtain comments from the public on issues and options before formal review processes begin.

DATE	LOCATION	TIME	VENUE
