Note: All figures are inclusive of GST (except where stated otherwise)

All loads over 8 tonnes gross weight for compacting transfer stations (Winton and Te Anau) or 3 tonnes gross weight at non-compacting transfer stations (All others) will NOT BE accepted unless prior written approval has been granted by the group manager services and assets or his agent.

Stewart Island transfer station does not accept any truckloads of general waste. Building and commercial waste may **NOT** always be accepted. We encourage contractors to allow to supply their own commercial skip bin directly to and from the mainland for individual construction activity.

Hazardous waste from the same individual or organisation in excess of 10 kilograms or 10 litres will be subject to special charge by negotiation with the engineer or his delegated representative on a case by case basis.

Recycling and reuse include:

- greenwaste - separated clean greenwaste (where accepted). Excludes soils, flaxes, branches over 150mm diameter and tree stumps
- scrap metal - separated clean scrap metal (where accepted)
- reuse/recyclables - domestic household recyclables, including cardboard, glass, plastics, aluminium and tin cans (all recyclables and reuse items have to be clean from contamination)
