1.5 Financial Forecasts

Note: the financial forecasts are prepared on a business as usual basis.

	2020/21	2021/22	2022/23
Revenue	1,201,970	1,225,074	1,248,709
Expenses	1,208,502	1,230,520	1,253,266
Net Surplus / Deficit	(6,531)	(5,446)	(4,557)

The loss is directly related to depreciation of assets the Trust has. Cash flow position is neutral each year.

The SMAGTB receives annual grants from the Southland Regional Heritage Committee and has an annual service contract with Invercargill City Council.

The SMAGTB will approve the budget for expenditure in the Management Contract each year. See Section 2.3, Management of the Southland Museum and Art Gallery.

The SMAGTB owns some of the collection and is guardian of other parts of the collection.

The existing building the collection is stored is potentially earthquake prone and has been closed to the public. It requires extensive redevelopment and also has insufficient storage and exhibition space to enable the facility to meet the community's needs. The Trust has minimal building reserves and will need to attract significant funding contributions from a wide range of sources to pay for this redevelopment.

With the building closed, SMAGTB has agreed to establish a temporary presence in the city. This will be carried out with collaboration from the Invercargill Public Art Gallery and has been assisted by additional funding of \$200,000 from the Invercargill City Council.

1.6 Bicultural Development

Southland Museum and Art Gallery maintains a working partnership with iwi through the Iwi Liaison Komiti, which has representatives from the four Southland runanga. The Iwi Liaison Komiti meets quarterly to discuss issues relating to the collections and exhibitions.

Southland Museum and Art Gallery continues to build a rich relationship with Ngati Koata through Mana Whenua with regard to the care of the Tuatara.

4.0 ACCOUNTING POLICIES

4.1 Basis Of Preparation

The Board has elected to report in accordance with Tier 2 Not-For-Profit PBE Accounting Standards and in doing so has taken advantage of all applicable Reduced Disclosure Regime (RDR) disclosure concessions. This is on the basis that the Trust does not have public accountability (as defined) and has total annual expenses of more than \$2 million and less than \$30 million.

All transactions in the financial statements are reported using the accrual basis of accounting.

The financial statements are prepared under the assumption that the Trust will continue to operate in the foreseeable future.

The Trust is domiciled in New Zealand, is a reporting entity for the purposes of the Charitable Trusts Act 1957 and its financial statements comply with that Act.

The trustees of the Trust do not have the power to amend the financial statements after issue.

4.2 Changes In Accounting Policies

There has been no change in accounting policies.

4.3 Goods And Services Tax (GST)

The Trust is registered for GST. All amounts in the financial statements are recorded exclusive of GST, except for debtors and creditors, which are stated inclusive of GST.

4.4 Revenue

Revenue is recognised to the extent that it is probable the economic benefit will flow to the Trust and revenue can be reliably measured. Revenue is measured at fair value of the consideration received. The following specific recognition criteria must be met before revenue is recognised.

4.4.1 Grants

Council, government, and non-government grants are recognised as revenue when the conditions attached to the grant has been complied with. Where there are unfulfilled conditions attached to the grant, the amount relating to the unfulfilled condition is recognised as a liability and released to revenue as the conditions are fulfilled.

4.4.2 Donations

Donations are recognised as revenue upon receipt.

4.4.3 Bequests

Revenue from estates that satisfies the definition of an asset is recognised as revenue when it is probable that future economic benefits or service potential will flow to the entity, and the fair value can be measured reliably.

4.4.4 Interest revenue

Interest revenue is recognised as it accrues, using effective interest method.

4.4.5 Other revenue

Revenue is measured at the fair value of consideration received.

4.5 Expenditure

All expenditure is recognised in the period in which it is incurred and expensed when the related services has been received.

4.6 Income Tax

The Trust is exempt from the payment of income tax. Accordingly no charge for income tax applies or has been provided for.

4.7 Donated Services

The work of the museum is dependent on the voluntary service of many individuals and organisations. Since these services are not normally purchased by the museum and because of the difficulty of determining their value with reliability, donated services are not recognised in the financial statements.

4.8 Cash and cash equivalents

Cash and cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. These comprise cash on hand, cheque or savings accounts, and deposits held at call with banks. Bank overdrafts are presented as a current liability in the statement of financial position.

4.9 Short term investments

Short term investments comprise term deposits which have a term greater than three months and therefore do not fall into the category of cash and cash equivalents.

4.10 Receivables

Short-term receivables are recorded at the amount due, less any provision for non-collectability. A receivable is considered uncollectable when there is evidence the amount due will not be fully collected. The amount that is uncollectable is the difference between the amount due and the present value of the amount expected to be collected.

4.11 Creditors And Accrued Expenses

Creditors and other payables are measured at the amount owed.

4.12 Property, Plant And Equipment

Property, plant and equipment is recorded on the cost basis, less accumulated depreciation and impairment losses.

Property, plant, and equipment held at cost that has a finite useful life are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable service amount. The recoverable service amount is the higher of an asset's fair value, less costs to sell, and value in use. The total impairment loss is recognised in the surplus or deficit.

The Trust has elected not to revalue property plant and equipment

4.12.1 Additions

The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the Trust and the cost of the item can be measured reliably.

4.12.2 Depreciation

Depreciation has been charged in the Financial Statements on the basis of the economic life rates recommended by the Inland Revenue Department as follows:

Buildings	2%	SL
Fit-out	9 - 40%	DV

4.12.3 Heritage Assets

The Southland Museum & Art Gallery Trust Board owns an extensive collection of material and information relating to natural, cultural and scientific heritage. Heritage assets are valued at cost or fair value at the date of acquisition and are not depreciated.

All assets acquired are recognised at cost at the date of acquisition. As a large number of the Heritage assets are donated or subsidised generally such cost will be nil unless they have been acquired as a result of a purchase by the Trust.

The bulk of the Trust's collection is represented by unrealisable or irreplaceable items and it is impracticable and cost prohibitive to value them on a "Market Based" or "Depreciated Replacement Cost" basis. As a consequence the Trust's collection is undervalued in these financial statements.

The result of this accounting policy means that the vast majority of the Museum's collection is effectively valued for accounting purposes at nil, or at historical cost for those few items purchased.

The primary function and purpose of the Southland Museum is the preservation and display of the extensive collection of heritage assets. These are the tasks that make up the bulk of the Southland Museum's activities.

This means that much of the collection is valued at nil, or very old historical cost for those few items purchased. The Board is confident that if the collection, however unlikely, was to be sold, its market value would be very substantial.

The fact that most of the collection has a nil, or low, value for accounting purposes in no way reduces the true value of the collection or the care that is exercised in its conservation and exhibition.

For Insurance purposes, the collection is valued at \$10,000,000.
