

Waterford Drive – Water Main Renewal

Southland District Council has contracted Fulton Hogan to replace aged water pipes in Winton's Waterford Drive area. It's a major project. Water supply will be maintained through most of the work, but there will be planned service shutdowns as required.

All planned shutdowns will be notified 48 hours beforehand, and every effort will be made to meet properties' specific requirements.

The work includes excavating trench lines within the road boundary of Russell Street, Waterford Drive, Hamilton Avenue, McWilliam Avenue and Welsh Road.

The project will be split into stages so that work can be contained within areas and traffic, residents' and pedestrian movements can be managed with the least possible disturbance.

Key project dates and times:

Project start: 24 October 2017

Estimated project completion: 1 July 2018

Work will be done between the hours of 7am and 6pm, Monday to Friday, with occasional weekend work.
