Approval Conditions:						
<p>Approval is granted on the basis the Traffic Management Plan (TMP) is relevant to the work being carried out on-site at the time of the extension application. Should an extension of road space be required, a complete revision, including updated plans, will be required. This approval now forms part of your accepted TMP and is needed to be held on-site for inspection. This TMP extension is deemed to be approved to extend all temporary speed restrictions in place within this TMP. However, the times and locations are required to be recorded through the on-site record.</p>
